Ameron

Traditional Series

Aegean Poles

Available in base plate and internal bolting

The Aegean pole reflects ancient Greek influence at its best. It features classic detailing including an annulated base, fluted shaft with unique entasis taper, and flared collar. This time-honored design enhances modern surroundings.

Our Ameron Traditional Series lighting poles combine the charm of yesterday with the technology of today. Available in a wide variety of styles, colors, and finishes, these poles provide architects and designers with many creative options.

Features and Benefits

- Prestressed steel and highest quality concrete are centrifugally cast for ultimate strength and durability
- Natural stone and terrazzo aggregates maintain a like-new appearance with virtually no maintenance
- Conforms to applicable sections of ACI, AASHTO, ASTM, and IBC standards
- Exclusive 10-year warranty

Colors and Finishes

A wide range of standard, preformulated, and custom colors are available. The concrete shafts are lightly blasted to expose the texture and color of the natural stone. See separate aggregates and finishes sheet for details. We offer Amerishield, a premium graffiti-resistant coating, as well as other durable sealers and protectants that further enhance colors, protect the concrete surface, and aid in the removal of graffiti.

Ameron

Traditional Series

Huntington Poles

Available in base plate style

The design of the Huntington pole dates back to the 1920s, when similar styles were installed throughout Southern California. When many of the vintage poles were damaged in an earthquake, we were asked to replicate the classic design. Our version features important structural advancements including prestressed steel and centrifugally cast concrete for ultimate strength and long-term structural integrity.

Our Ameron Traditional Series lighting poles combine the charm of yesterday with the technology of today. Available in a wide variety of styles, colors, and finishes, these poles provide architects and designers with many creative options.

Features and Benefits

- Prestressed steel and highest quality concrete are centrifugally cast for ultimate strength and durability
- Natural stone and terrazzo aggregates maintain a like-new appearance with virtually no maintenance
- Conforms to applicable sections of ACI, AASHTO, ASTM, and IBC standards
- Exclusive 10-year warranty

Ameron

Traditional Series

Kodiak Poles

Available in base plate and embedded styles

The stark simplicity of the Kodiak pole makes it a fitting complement to a wide variety of architectural styles, both traditional and modern. The tapered octagonal shaft is gracefully understated.

Our Ameron Traditional Series lighting poles combine the charm of yesterday with the technology of today. Available in a wide variety of styles, colors, and finishes, these poles provide architects and designers with many creative options.

Features and Benefits

- Prestressed steel and highest quality concrete are centrifugally cast for ultimate strength and durability

Ameron

Traditional Series

Washington Poles

Available in base plate style

In 1910 the Commission of Fine Arts in Washington D.C. designed the simple, classically fluted lighting standard on which the Ameron Washington pole is based. Our version of the classic design is available in durable, low-maintenance, prestressed, and spun-cast concrete that retains its beauty for many years even in the most severe weather conditions.

This timeless design complements both traditional and contemporary settings. Our Ameron Traditional Series lighting poles combine the charm of yesterday with the technology of today. Available in a wide variety of styles, colors, and finishes, these poles provide architects and designers with many creative options.

Features and Benefits

- Prestressed steel and highest quality concrete are centrifugally cast for ultimate strength and durability
- Natural stone and terrazzo aggregates maintain a like-new appearance with virtually no maintenance
- Conforms to applicable sections of ACI, AASHTO, ASTM, and IBC standards
- Exclusive 10-year warranty

Colors and Finishes

A wide range of standard, pre-formulated and custom colors are available. The concrete shafts are lightly blasted to expose the texture and color of the natural stone. See separate Aggregates and Finishes sheet for details. We offer Amerishield a premium graffiti-resistant coating, as well as other durable sealers and protectants that further enhance colors, protect the concrete surface, and aid in the removal of graffiti.

Ameron Tall Washington Poles

Available in base plate and embedded styles

In 1910 the Commission of Fine Arts in Washington D.C. designed the classically fluted lighting standard on which our Washington pole is based. Our Tall Washington is made from prestressed spun-cast concrete and will retain its beauty for many years, even in severe weather conditions.

Features and Benefits

- Prestressed steel and highest quality concrete are centrifugally cast for ultimate strength and durability
- Natural stone and terrazzo aggregates maintain a like-new appearance with virtually no maintenance
- Conforms to applicable sections of ACI, AASHTO, ASTM, and IBC standards
- Exclusive 10-year warranty

Colors and Finishes

A wide range of standard, preformulated, and custom colors are available. The concrete shafts are lightly blasted to expose the texture and color of the natural stone. See separate aggregates and finishes sheet for details. We offer Amerishield, a premium graffiti-resistant coating, as well as other durable sealers and protectants that further enhance colors, protect the concrete surface, and aid in the removal of graffiti.
